

## **ISMS Policy Statement**

The information in all the forms, digital and non-digital, i.e., stored on electronic or magnetic media or on paper or with people or information in transit or in any other form, is considered an Information asset of RAK Properties. These information assets fall within the scope of ISMS, are given appropriate protection from unauthorized or improper use.

*“Information assets of RAK Properties shall be protected from identified information security threats, whether internal or external, deliberate or accidental, such that the brand image is protected, confidentiality of information is maintained, integrity of information can be relied upon, availability of information is ensured, and all applicable business, legal, regulatory, statutory and contractual obligations are met, with focus on continual improvement of the Information Security Management System”.*
